

REMARKS/ARGUMENTS

Amendments

The Specification has been amended to correct the formula just above line 15 on page 8 to show the oxygen atom of the carboxylic group attached to the carbon atom.

Claim 5 has been amended to correct the formula in Claim 5 to show the oxygen atom of the carboxylic group attached to the carbon atom.

In view of the above amendments, it is respectfully requested that the objections to the Specification and Claims now be withdrawn.

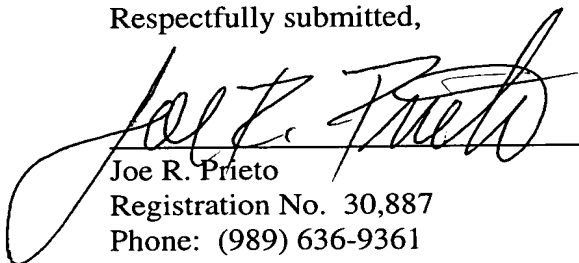

Allowable Subject Matter

Claims 5 and 6 would be allowable if re-written to correct the formula set forth in Claim 5. Claim 5 has now been amended as mentioned above and should now be allowable. Claim 6, being dependent on Claim 5, should also now be allowable.

Claim 1-4 and 7-13 stand allowed.

It is believed that with the correction to Claim 5, all pending claims are now allowable. Reconsideration of the objections and an early allowance of all the claims is respectfully requested.

Respectfully submitted,
